## EDUCATION

**Vellore Institute of Technology – AP University**  
*Bachelor of Technology in Computer Science and Engineering*  
**Sainik School Korukonda**  
*Secondary and Higher Secondary Education*

CGPA: 9.11  
October 2022 – Present  
Percentage: 91%  
June 2014 – May 2021

## EXPERIENCE

**Community Manager**  
*Microsoft Student Chapter*

June 2024 – Present  
VIT-AP University

- Oversee two teams focused on posting innovative tech updates and coding reels on social media.
- Engaged over 1000+ users with informative tech reels and tech updates.
- Manage content creation to explain important and trending coding concepts.
- Coordinate with team members to ensure timely and impactful content delivery.

## PROJECTS

**Streamify Web Application** | *MERN, Cloudinary, TanStack/React-Query, React Toast*

[\[Link\]](#)

- Developed a web platform with video uploading, user authentication, and video playback functionalities.
- Utilized MERN stack for a robust and scalable development environment.
- Deployed frontend on Vercel and backend on Render for seamless CI/CD integration.
- Integrated Cloudinary for efficient file storage and management.
- Implemented data fetching with TanStack/React-Query for optimal performance.
- Handled form data with React Hook Form for user interactions.

**Blogging Web Application (Blogs)** | *Vite, React, Redux, React Hook Form, TinyMCE, Vercel*

[\[Link\]](#)

- Developed a blog platform with user authentication, post creation, and rich text editing.
- Utilized Vite+React for a fast development environment.
- Implemented state management with Redux and form handling with React Hook Form.
- Configured routing with React Router for navigation.
- Deployed the application on Vercel for seamless CI/CD integration.

**Mental Health Web Application** | *Vite, React, Tailwind CSS, Supabase, Ant Design*

[\[Link\]](#)

- Built a mental health support platform with user profiles and mental health resources.
- Employed Vite for fast development and React for component-based architecture.
- Utilized Tailwind CSS for modern styling and Ant Design for UI components.
- Implemented Supabase for authentication and database management.
- Ensured a responsive design for accessibility across devices.

## TECHNICAL SKILLS

**Languages:** Java, Python, JavaScript, HTML, CSS

**Frameworks:** MongoDB, ExpressJS, ReactJS, NodeJS

**Tools:** Git, GitHub, React-Query, React Hook Forms, React Toast, Appwrite, Cloudinary, Vercel, Render

**Concepts:** DSA, OOPs, CN, DBMS

## ACHIEVEMENTS AND CERTIFICATIONS

- **PCAP Programming Essentials in Python** Certified by Cisco Networking Academy
- **AWS Cloud Practitioner Certification** (Currently Undergoing)
- **Ranked 26th** out of 100 teams in 'CODE STORM' national event organized by SCOPE, NextGen Cloud club, and Microsoft Student Chapter
- **Participant** in National Wide Hackathon "HackFest2k24" Organized by CSI Chapter
- **Solved** Over 150+ DSA Problems on Leetcode

## SOFT SKILLS

- Excellent communication, teamwork, and problem-solving skills demonstrated through various team projects and leadership roles. Disciplined and punctual.
